Waad Hussain Riyadh

Saudi Arabia is on the brink of a remarkable transformation in sports infrastructure, having unveiled plans for 15 stadiums as part of its FIFA World Cup 2034 bid.

At the heart of this ambitious project is the King Salman International Stadium in Riyadh, which is set to become the largest stadium in the Kingdom, boasting a capacity of 92,760 seats. Scheduled for completion in 2029, the stadium's design harmonizes with the natural landscape.

The Prince Mohammed bin Salman Stadium is also set to open its doors in 2029, in the entertainment city of Qiddiya being developed on the outskirts of Riyadh. With a capacity of 46,979, this stadium features a unique three-sided design that offers breathtaking views of the Tuwaiq cliffs.

In this evolving sports scene, the New Murabba Stadium stands out as a community-focused venue, expected to be completed by 2032.

The ROSHN Stadium, located in southwest Riyadh, will have a capacity of 46,000, with a saddle-shaped seating bowl enhancing spectator comfort and encouraging social interactions.

Meanwhile, the Prince Faisal bin Fahd Sports City Stadium is under construction and is expected to be

completed in 2027.

The South Riyadh Stadium, projected to be finished by 2032, reflects the principles of Salmani architecture, blending modernity with the rich architectural language of the region.

In the innovative city of NEOM, the NEOM Stadium features a unique design placing the pitch more than 350 meters above ground, providing

stunning vistas and leveraging advanced technology for an unparalleled spectator experience. Scheduled for completion in 2032, this stadium will run entirely on renewable energy.

The Qiddiya Coast Stadium in Jeddah, expected to be completed by 2032, features a design that celebrates the relationship between people and water.

Among the existing stadiums, the King Fahd Sports City Stadium remains a prominent venue in Riyadh.

Currently undergoing refurbishment to meet modern standards, and will have an expanded capacity of 70,200 by 2026.

In Jeddah, the King Abdullah Sports City Stadium is the second largest stadium in Saudi Arabia, with a capacity of 58,432.

The King Saud University Stadium in Riyadh currently serves as a home for Al-Nassr football club, with plans for expansion ahead of major events.

The proposed fan festival locations are designed to provide unforgettable experiences for fans from around the world. Supplied
